SUMMARY

Dedicated IT graduate specializing in Backend Development with hands-on experience in Python, Django, PostgreSQL, and OOP. Strong passion for learning new stacks with excellent communication skills and high ability to collaborate effectively within team environments.

TECHNICAL SKILLS

Languages: Python, HTML, CSS

Frameworks: Django

Databases: PostgreSQL

Concepts: Object-Oriented Programming (OOP), Object-Relational Mapping (ORM), Model-View-Template (MVT), CRUD

Tools: Git, GitHub

PROJECTS

Django Blog App

A blog web application built with Django that allows users to create, read, update, and delete blog posts.

- Implemented full CRUD operations for creating, reading, updating, and deleting blog posts.
- Applied user authentication and author-based permissions to secure content management.
- Built a clean backend structure following Django best practices.
- Enabled users to log in, create their own posts, and edit or delete only their own content.
- Developed dynamic pages for browsing blog post details.
- Strengthened backend development skills using Django and relational databases.

Tech Stack: Python, Django, SQLite, HTML, Django Templates, Git & GitHub

To-Do List

A full-featured task management web application built with Django.

- Developed a full-featured task management web application using Django and the MVT architecture.
- Implemented full CRUD operations for task creation, editing, deletion, and status tracking.
- Integrated user authentication system to manage personal task lists securely.
- Used Django ORM with SQLite for efficient database interactions and data modeling.

Tech Stack: Python, Django, SQLite, HTML, CSS

Tic-Tac-Toe Game

A command-line Tic-Tac-Toe game built with Python using Object-Oriented Programming.

- Built a command-line Tic-Tac-Toe game in Python using Object-Oriented Programming (OOP).
- Designed modular class structure applying the Single Responsibility Principle (SRP) across four classes.
- Implemented win detection, draw detection, and turn management logic.

Tech Stack: Python, OOP

EDUCATION

Ittihad University — Bachelor of Science in Information Technology

Alqeen, Syria | GPA: 2.6 / 4.0 | Expected Graduation: 2026

CERTIFICATIONS

- The Complete SQL Bootcamp: Go from Zero to Hero — Udemy (2026)
- Python Certificate — Syrian Computer Society (2024)
- HTML & CSS Certificate — OUSOS Company for Training & Human Resources Development
- Django — Abdelrahman Gamal

CURRENT LEARNING

- Django REST Framework (DRF)

VOLUNTEER EXPERIENCE

- Al-Birr Association and Social Services — Homs, Al-Qaryatayn

LANGUAGES

Arabic — Native | English — Upper Intermediate

SOFT SKILLS

Teamwork and Collaboration | Fast Learner | Dependability
